

I am an XM Radio customer and I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a wide variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I request that the FCC reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve. I believe we should be protected by the freedoms of the First Amendment.

Sincerely,

Perry Campbell
